

SAND GOANNA

All our Australian First Aid courses are Accredited and Registered under the Australian Quality Training Framework (ATQF) this allows us to deliver and assess Nationally Recognised Qualifications through statements of Attainments from the National Health Training Package.

We only teach the most up-to-date First Aid techniques, materials and use Quality Industry approved equipment and focus on 'hands on' scenario based learning which helps produce more confident and skilled First Aiders.

Our courses can be conducted at our fully Equipped Training centre's or On Site (We come to you) and group training can be provided during the day, evenings or on weekends. We are completely flexible and our aim is to equip you with the knowledge and skills to deliver life-saving techniques and practices.

Emergency's can occur at anytime, but when one does, having the first aid training and skills may help you to save a life of someone you love.

After consulting with one of our friendly staff members, you will see our ambition is to look after all your training needs.

FACE TO FACE

Traditional, face to face training remains available and is still the preferred methods of delivery for many people and organisations. This method of learning allows for greater interaction between students & trainers during the theory component of the training and is often useful where language or technology barriers exist.

ONLINE (WEB TUTORIAL)

Online Workbook Theory - Online & workbook theory saves time, is convenient and saves money in lost productivity, transport and other training costs. Achieving National Certification for its online systems.

WORK BOOK

Work book theory – Once again saves you time and money simple enroll in a course and we will post out the courses notes to you, when completed bring in or send it back. (Self paced)

flexible solutions for your training needs

Sand goanna offers a wide range of diversified First Aid courses at competitive prices.

Our aim is provide life-saving techniques at a reasonable price, we pride ourselves as a company that place's trust and honesty before profit, any savings we make we pass any savings onto our clients.

FREE NEEDS ANALYSIS

Your workplace, industry or other environment is unique. For companies and organisation's requiring ongoing first aid training, we offer free needs analysis to identify your key risk areas. Your needs may include environmental, mechanical or man made risks which present injury risks uncommon to other organisation's. We're able to modify our course structure to accommodate your unique requirements.

ONLINE THEROY & WORK BOOKS

So, how does it all work? - It's simple, whether or not you have access to a computer or the Net, you can undertake your Theory Training & Assessment for a number of our courses 'prior' to attending your Practical Training & Assessment day by selecting Online or Workbook systems.

Self Paced Learning - When using our unique Online or Workbook systems, you can simply undertake your training and assessment when it's convenient for you, prior to attending your Practical Training & Assessment day. There's less pressure to perform in a classroom "exam like" situation.

WE'VE WORKED WITH A DIVERSE CUSTOMER BASE. HOW CAN WE HELP YOU?
